CAREER OBJECTIVE

Motivated and enthusiastic B.Tech Information Technology student with an interest in Software Development, Python, Web Development, and AI-based applications. Interested in building practical projects and improving programming and problem-solving skills. Seeking opportunities to learn, contribute to real-world projects, and develop a strong career in the software industry.

EDUCATION

B.Tech – Information Technology

Nandha Engineering College, Erode

2025 – Present

Currently pursuing 2nd Year

Higher Secondary Education – Bio-Maths

Variyar Hr. Sec. School

Completed: 2025

TECHNICAL SKILLS

- Programming: C, Python, Java
- Web Development: HTML, CSS, JavaScript, React.js
- Backend: Node.js, Express.js
- Database: MongoDB
- Tools: Git, GitHub, VS Code
- Frameworks/Libraries: Flask, Framer Motion
- Other: REST APIs, Responsive Web Design

PROJECTS

TrustScan AI – Product Authenticity Verification System

- **Technologies:** React.js, Node.js, Python, AI, QR/Barcode
- Developed an idea for an AI-powered system to identify whether a product is Original, Suspicious, or Fake.
- Uses QR code, barcode, and serial number verification.
- Designed a risk-analysis approach using factors such as scan history, location, time difference, and serial-number matching.
- Includes detection of suspicious product movement and duplicate/cloned product information.

Smart Translation Toy

- **Technologies:** ESP32, Microphone, Speaker, Wi-Fi
- Designed an IoT-based educational toy that listens to spoken phrases and provides translations.
- Proposed architecture using Microphone → ESP32 → Translation Service → Speaker.
- Focused on making language learning interactive for children.

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Quick Learning
- Time Management
- Adaptability

AREAS OF INTEREST

- Software Development
- Python Development
- Web Development
- Artificial Intelligence
- IoT
- Problem Solving
